Molecular and Cellular Biochemistry **219:** 171–173, 2001.

Index to Volume 219

Acitores A, *see* Malaisse WJ *et al*
Atshaves BP, *see* Schroeder F *et al*

Boedeker AL, *see* Schroeder F *et al*

Cancelas J, *see* Malaisse WJ *et al*
Chatterjee M, Wu S: Cell line dependent involvement of ceramide in ultraviolet light-induced apoptosis 21–27
Chuang L-T, *see* Kelder B *et al*

Deepa Machiah K, *see* Rudrammaji LMS *et al*

Ember Z, *see* Yago MD *et al*

Flynn TG, *see* Tse MY *et al*
Fowler CJ, *see* Hedin HLM *et al*
Foxworth WB, *see* Schroeder F *et al*
Fujihara N, *see* Hattori M-A *et al*

Genade S, *see* Huisamen B *et al*
Guma FCR, *see* Ziulkowski AL *et al*

Haridas S, *see* Khan I *et al*
Hattori M-A, Takesue K, Kato Y, Fujihara N: Expression of endothelial nitric oxide synthase in the porcine oocyte and its possible function 121–126
Hedin HLM, Nilsson L, Fowler CJ: Effects of staurosporine, U-73122, wortmannin, 4-hydroxynonenal and sodium azide upon the release of secreted β-amyloid precursor protein from human platelets in response to thrombin stimulation 145–152
Himeno S, *see* Ikeda K *et al*
Hotta Y, Ishikawa N, Ohashi N, Matsui K: Effects of SM-20550, a selective Na^+-H^+ exchange inhibitor, on the ion transport of myocardial mitochondria 83–90
Hovanec G, *see* Kelder B *et al*
Huang Y-S, *see* Kelder B *et al*
Huisamen B, Marais E, Genade S, Lochner A: Serial changes in the myocardial β-adrenergic signalling system in two models of non-insulin dependent diabetes mellitus 73–82

Ikeda K, Miura K, Himeno S, Imura N, Naganuma A: Glutathione content is correlated with the sensitivity of lines of PC12 cells to cisplatin without a corresponding change in the accumulation of platinum 51–56
Imura N, *see* Ikeda K *et al*
Ishikawa N, *see* Hotta Y *et al*

Kato Y, *see* Hattori M-A *et al*
Kaul D: Molecular link between cholesterol, cytokines and atherosclerosis 65–71
Kaur G, Kaur G: Role of cholinergic and GABAergic neurotransmission in the opioids-mediated GnRH release mechanism of EBP-primed OVX rats 13–19
Kaur G, *see* Kaur G
Kelder B, Mukerji P, Kirchner S, Hovanec G, Leonard AE, Chuang L-T, Kopchick JJ, Huang Y-S: Expression of fungal desaturase genes in cultured mammalian cells 7–11
Khan I, Thomas N, Haridas S: Expression and sub cellular localization of the sodium hydrogen exchanger isoform-1 in rat tissues: A possible functional relevance 153–161
Kier AB, *see* Schroeder F *et al*
Kirchner S, *see* Kelder B *et al*

Kopchick JJ, *see* Kelder B *et al*
Krishna Kantha TP, *see* Rudrammaji LMS *et al*

Ladrière L, *see* Malaisse WJ *et al*
Lawrence DA: Latent-TGF-β: An overview 163–170
Leonard AE, *see* Kelder B *et al*
Lochner A, *see* Huisamen B *et al*

Madhavan Nair K, *see* Srigiridhar K *et al*
Malaisse WJ, Ladrière L, Cancelas J, Acitores A, Villanueva-Peñacarrillo ML, Valverde I: Pancreatic and hepatic glycogen content in normoglycemic and hyperglycemic rats 45–49
Mañas M, *see* Yago MD *et al*
Marais E, *see* Huisamen B *et al*
Matsui K, *see* Hotta Y *et al*
McCarthy J, *see* Smith RM *et al*
Misawa H, Yamaguchi M: Involvement of nuclear factor-1 (NF1) binding motif in the regucalcin gene expression of rat kidney cortex: The expression is suppressed by cisplatin administration 29–37
Miura K, *see* Ikeda K *et al*
Mukerji P, *see* Kelder B *et al*

Naganuma A, *see* Ikeda K *et al*
Nilsson L, *see* Hedin HLM *et al*

Ohashi N, *see* Hotta Y *et al*

Pang SC, *see* Tse MY *et al*

Roths JB, *see* Schroeder F *et al*
Rudrammaji LMS, Deepa Machiah K, Kirshna Kantha TP, Veerabasappa Gowda T: Role of catalytic function in the antiplatelet activity of phospholipase A_2 cobra (*Naja naja naja*) venom 39–44

Sack MN, *see* Smith RM *et al*
Sarda IR, *see* Tse MY *et al*
Schroder F, Atshaves BP, Starodub O, Boedeker AL, Smith RR III, Roths JB, Foxworth WB, Kier AB: Expression of liver fatty acid binding protein alters growth and differentiation of embryonic stem cells 127–138
Sharma A, Singh M: Protein kinase C activation and cardioprotective effect of preconditioning with oxidative stress in isolated rat heart 1–6
Singh J, *see* Yago MD *et al*
Singh M, *see* Sharma A
Singotamu L, *see* Srigiridhar K *et al*
Smith RM, McCarthy J, Sack MN: TNF alpha is required for hypoxia-mediated right ventricular hypertrophy 139–143
Smith III RR, *see* Schroeder F *et al*
Srigiridhar K, Madhavan Nair K, Subramanian R, Singotamu L: Oral repletion of iron induces free radical mediated alterations in the gastrointestinal tract of rat 91–98
Starodub O, *see* Schroeder F *et al*
Subramanian R, *see* Srigiridhar K *et al*

Takesue K, *see* Hattori M-A *et al*
Thomas N, *see* Khan I *et al*
Trugo LC, *see* Ziulkoski AL *et al*
Tse MY, Watson JD, Sarda IR, Flynn TG, Pang SC: Expression of B-type natriuretic peptide in atrial natriuretic peptide gene disrupted mice 99–105

Valverde I, *see* Malaisse WJ *et al*
Veerabasappa Gowda T, *see* Rudrammaji LMS *et al*
Villanueva-Peñacarrillo ML, *see* Malaisse WJ *et al*

Watson JD, *see* Tse MY *et al*
Wu S, *see* Chatterjee M

Yamaguchi M, *see* Misawa H
Yago MD, Mañas M, Ember Z, Singh J: Nitric oxide and the pancreas: Morphological base and role in the control of the exocrine pancreatic secretion 107–120

Zanettini JS, *see* Ziulkoski AL *et al*
Zimmer AR, *see* Ziulkoski AL *et al*
Ziulkoski AL, Zimmer AR, Zanettini JS, Trugo LC, Guma FCR: Synthesis and transport of different sphingomyelin species in rat Sertoli cells 57–64
